**A**dams Arms has transformed the AR platform finally making it into a clean, cool, reliable firearm.

Our Mission is to meet the engineering and design needs that will further the capabilities of the AR-15 platform through machining ingenuity, coating processes, and system design—all while maintaining modularity.

We pride ourselves on delivering products and customer service that meet the high expectations of today's consumer.

All Adams Arms parts are manufactured in the USA, machined out of the highest-grade materials for their applications, finished with the most technologically advanced

coating processes, all with a Limited Lifetime Warranty.

We began with a patented piston design that vastly improves the operating system of the AR platform. An Adams Arms retrofit can upgrade any direct-impingement rifle to a clean, cool, reliable piston system in about 30 minutes using standard tools.

Adams Arms uses proprietary coatings and surface treatments on critical components, Adams Arms products meet or exceed Mil-Spec performance standards.

Adams Arms continued to innovate by utilizing the .308 small frame platform rifle. Weighing less than 8lbs, this piston-driven rifle

is a favorite of big-game hunters and metal shooters alike.

Adams Arms then focused on pistol slide assemblies. Available for Glock 17 and Glock 19, the VS17 and VS19 slides are profiled and lightened for match-grade performance. Both slides come available optic ready.

Today, we continue to streamline production and grow our product line to offer the highest quality firearms and components in the industry.

## The Adams Arms Difference

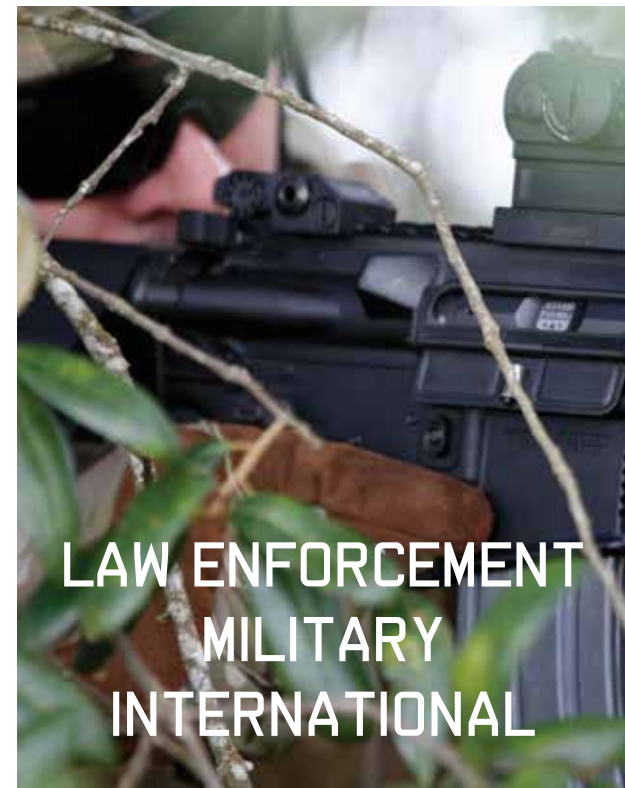

Adams Arms' proprietary operating systems eliminate direct impingement, thus allowing the critical moving parts to remain clean, free from heat, and carbon build up.

The Benefits:

- The action is cycled by a short-stroke, free-floating, and self-cleaning piston system.
- Carbon and gases are expelled forward, away from the operator.
- The bolt carrier group and critical components remain cool and clean.
- All parts have a corrosive-resistant coating.
- Harmonics are not transferred into the barrel.
- Adjustable gas settings allow for varied applications.
- Gas doesn't vent direct to atmospheric pressure, which eliminates flash signature and supersonic crack making the platform optimal for night vision and suppressed fire.

# P SERIES

The Adams Arms P1 is the anchor of the P-Series. The P1 model is built with the Standard Picatinny Adjustable Block piston system, a M4 style stock, an A2 grip, and a standard trigger guard. The P1 MOE model includes Magpul MOE handguards, stock, and grip, with the Standard Picatinny Adjustable Gas Block piston system. The P1 and P1 MOE are perfect for anyone looking for a self-cleaning, piston driven rifle that provides superior performance. The P1 model is available in 11.5" and 16" 5.56 and the P1 MOE is available in 16" 5.56 & .308.

P1 AR-15 5.56x45mm NATO Carbine Adjustable Gas Piston 11.5" BRL w/ M4 Hand Guard

P1 AR-15 5.56x45mm NATO Carbine Adjustable Gas Piston 16" BRL w/ M4 Hand Guard & A2 Flash Hider

P1 MOE AR-15 5.56x45mm NATO Carbine Adjustable Gas Piston 16" BRL w/ Magpul MOE Furniture & A2 Flash Hider

P1 MOE Small Frame Semi-Auto .308 WIN Mid Length Adjustable Gas Piston 16" BRL w/ Magpul MOE Furniture & A2 Flash Hider

# P2 SERIES

The Adams Arms P2 model is the tactical, battle-ready model in the P-Series lineup. The P2 guns include ergonomic free float rails that cover the P-Series Micro Block piston systems. The P2s come with flip-up sights, a flash hider, an ambidextrous safety selector and charging handle, an angled pistol grip, as well as a tactical stock with QD mounts. The P2 is mission ready, off-the-shelf, and is easily configurable to suit your needs. The P2 is available in 7.5", 11.5", and 16" in 5.56, 8" and 12.5" in 300BLK, 12.5" and 16" in .308, and 18" in 6.5 CM.

P2 AR-15 300 AAC Blackout Pistol Length Adjustable Gas Piston 16" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 Small Frame Semi-Auto .308 WIN Mid Length Adjustable Gas Piston 16" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 AR-15 5.56x45mm NATO Mid Length Adjustable Gas Piston 16" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 Small Frame Semi-Auto 6.5 Creedmoor Rifle Length Adjustable Gas Piston 18" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 AR-15 5.56x45mm NATO Pistol Length Adjustable Gas Piston 7.5" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 Small Frame Semi-Auto .308 WIN Carbine Length 12.5" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 AR-15 5.56x45mm NATO Carbine Adjustable Gas Piston 11.5" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

P2 AR-15 300 AAC Blackout Pistol Length Adjustable Gas Piston 8" BRL w/ AARS M-LOK Rail System & A2 Flash Hider

# P3 SERIES

The Adams Arms P3 is the match-grade performance model in the P-Series lineup. The P3 features a jet comp, an ergonomic free float rail, and our signature P-Series Micro Block piston system. This rifle is designed for avid shooters with its ambidextrous safety selector and charging handle. The P3 includes a flat-faced CMC trigger, a rubber ergonomic grip, and an adjustable LUTH AR stock with cheek riser. This high-performance rifle is ready to compete. The P3 is available in 16" .223 Wylde, 12.5" 300BLK, 20" .224 Valkyrie, 17" .308, and 24" 6.5CM.

P3 AR-15 .223 Wylde Mid Length Adjustable Gas Piston 16" PROOF Research Carbon BRL w/ AARS M-LOK Rail System & Jet Comp Muzzle Brake

P3 AR-15 300 AAC Blackout Pistol Length Adjustable Gas Piston 12.5" PROOF Research Carbon BRL w/ AARS M-LOK Rail System & Jet Comp Muzzle Brake

P3 AR-15 .224 Valkyrie Rifle Length +1" Adjustable Gas Piston 20" PROOF Research Carbon BRL w/ AARS M-LOK Rail System & Jet Comp Muzzle Brake

P3 Small Frame Semi-Auto .308 WIN Int. Length Adjustable Gas Piston 17" PROOF Research Carbon BRL w/ AARS M-LOK Rail System & Jet Comp Muzzle Brake

P3 Small Frame Semi-Auto 6.5 Creedmoor Rifle Length +2" Adjustable Gas Piston 24" BRL w/ AARS M-LOK Rail System & Jet Comp Muzzle Brake

# P SERIES | UPPERS

For those looking for more functionality for an existing lower or for the parts to complete a custom build, Adams Arms offers P1, P2, and P3 uppers.

## P1 5.56

Available in 11.5" and 16"

## P2 5.56

Available in 7.5", 11.5", 16"

## P3 .223 Wylde

Available in 16"

## P1 MOE 5.56

Available in 11.5" and 16"

## P2 300BLK

Available in 8" & 16"

## P3 .224 Valkyrie

Available in 20"

## P3 300BLK

Available in 12.5"

# P SERIES | PISTOL KITS

Our revolutionary Retro-Fit Piston System converts a standard direct impingement rifle or AR pistol to a clean, cool, and reliable system without extensive modifications. The patented piston kit is a drop-in system that works on any Mil-Spec AR-15 and is compatible with most standard AR-15 parts. Our kits have been treated by various coating applications to increase durability, lubricity, and longevity, and have a lifetime warranty.

The Adams Arms Retro-Fit Piston System redirects gasses into a patented gas plug and drive rod cup instead of directing hot gas into the upper receiver. The gases are contained inside the drive rod, which cycles the action keeping hot gasses away from the operator.)

Adams Arms' proprietary operating systems mechanically actuate the bolt carrier from the outside of the receiver. The internal receiver and all the critical moving parts remain clean and free from heat and carbon build up.

#### All Kits Include:

Bolt Carrier, Drive Rod Assembly, Gas Block, and Bolt Spring

#### Piston Kit Options:

- Pistol, Carbine, Mid, or Rifle Length
- Standard or Low Mass Carrier
- 300BLK Specific Kit

## Micro Adjustable Piston Kit

Available in 5.56 or 300BLK

## Picatinny Adjustable Piston Kit

# LAW ENFORCEMENT AND MILITARY

Adams Arms provides the highest quality, most dependable, and most reliable firearms to Military, Law Enforcement, and First Responders. For government and agency purchases, please email [sales@adamsarms.net](mailto:sales@adamsarms.net).

# AA19

The AA19 is the newest addition to the Adams Arms lineup. This performance driven, compact 9x19mm handgun features our profiled VS19 slide. Our polymer frame has refined ergonomics and an enhanced grip texture. It comes standard with a Tango Down Vickers Trigger, a match-grade threaded barrel, multiple mounting plate options for miniature reflex sights, and a picatinny accessory rail.

## SPECIFICATIONS

- Polymer Frame with Enhanced Grip Texture
- Picatinny Accessory Rail
- 15+1 Capacity (2 Magazines Included)
- Complete Machined Billet 9x19mm 416 Stainless Steel Slide
- Black Nitride Coating
- Hard, Corrosion-Resistant, Smooth, Long-Wearing Finish
- 9mm Match Grade Barrel
- SAAMI Spec 9mm Match Chambering
- Match Grade Rifling for Enhanced Accuracy
- Threaded  $\frac{1}{2}$  x 28 TPI with Protector for Suppressor Use
- 1:16 Twist
- Pre-Captured Guide Rod
- Tango Down Vickers Tactical Carry Trigger
- Mounting Plates Compatible with the Following Optics:  
Trijicon RMR, Leupold Deltapoint Pro, Burris Fastfire 3, Vortex Venom, Viper, and Razor, C-More STS, Shield RMS, Holosun 407 & Holosun 507
